DIS contributes to the digital transformation of VARELAS S.A. & its subsidiaries Tech-Line S.A. and iPHARMA S.E. with Microsoft Dynamics 365 F&SCM.

Case Study

VARELAS S.A., a leader in Healthcare and Biomedical Research, partnered with DIS to implement Microsoft Dynamics 365 Finance & Supply Chain Management. This transformation enhances operational efficiency, optimizes financial and supply chain processes, and strengthens decision-making through real-time data, ensuring a competitive edge in the industry.

Challenges

-VARELAS S.A. needed to modernize its operations to maintain efficiency and competitiveness. The company faced several challenges that hindered growth and operational excellence:

-Fragmented financial and supply chain processes affecting efficiency.
-Limited real-time data access for informed decision-making.
-Need for enhanced internal collaboration and streamlined customer interactions.
-Adapting to evolving market demands and ensuring scalability.
-Maintaining a high standard of service and responsiveness.

Solution

DIS implemented Microsoft Dynamics 365 Finance & Supply Chain Management, driving digital transformation with:

-Centralized financial and operational data for better insights.
-Automated workflows to boost efficiency and reduce manual effort.
-Advanced collaboration tools for seamless teamwork.
-Scalable infrastructure to support business growth.

Benefits

With DIS & Microsoft Dynamics 365 F&SCM, VARELAS S.A. achieved:

-Optimized financial and supply chain operations, enhancing productivity.
-Real-time data-driven decision-making for better strategy execution.
-Improved collaboration across teams and partners.
-Faster market responsiveness and business adaptability.
-Superior customer service, strengthening its competitive position.
